The windy, windy month of August…blowing in new beginnings, fresh growth and warmer days. Let's shake those winter blues, get cracking, get planting and get fertilising – spring is right around the corner!

1. If you haven't **pruned your roses** yet, do so during the first week of the month. **Fertilise** with 3:1:5 or Ludwig's Vigorosa, mulch well & water thoroughly.
2. **Winter annuals** will be in full bloom now. Feed fortnightly with a **liquid fertiliser** & deadhead to ensure that their colours brighten up the garden for as long as possible.
3. Apply an organic **phosphate-rich fertiliser** like Bio Rock Rootbuilder to all beds, new plantings and pruned plants to promote strong **root** growth.
4. Re-pot or replenish **indoor plants** with fresh potting soil. Increase watering and feed with a liquid fertiliser like Nourish for Leafy Greens every 3 weeks.
